

## EPIC CONSULTANTS

Oxford Healthcare IT recruits experienced Epic consultants to ensure hospital systems and physician practices optimize their Epic IT investment. We have an unparalleled network of highly skilled Epic consultants across the United States, and we deliver results: Oxford fills the majority of the Epic assignments for which we compete.

Oxford's consultants utilize industry best practices to integrate Epic applications into our clients' business processes, and guide our clients through all phases of the Epic project lifecycle, including, but not limited to, the following modules:
